

Canvas Course has disappeared from the Dashboard

Can't find a room in Canvas anymore? If you're missing a room – for example, "Information from the student administration" – in your Canvas Dashboard, it could be due to two things:

1. The room is no longer active

You were previously registered for the room, but it is now inactive.

Solution:

- Go to "Courses" in the menu on the left. Select "All Gå til "All Courses" i menuen til venstre.
- Select "All Courses" at the bottom you can see your previously registered courses

2. You have many courses associated to your education

There may simple be to many subjects, and some are not displayed in your overviews . (There is a limit of 20)

Solution:

- Go to "Courses" in the menu on the left. Select.
- Select "All Courses".

Find the courses/rooms you would like to display in your overview and click on the **small star** next to them

(The star must be selected for the course to appear on your Canvas frontpage/Overview. You cannot select inactive courses)
