# Airtame—How to connect at BAAA
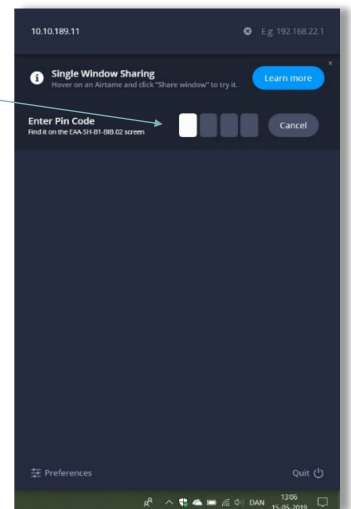

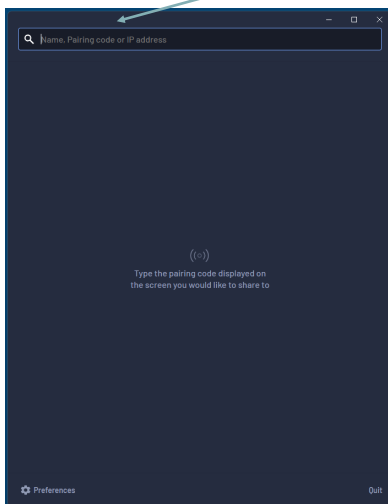

To connect wirelessly to the projectors with Airtame, you must do the following:

NB! If you don't have the Airtame app on your computer, download it at: airtame.com/start

- Turn on the projector by pressing the HDMI button on the wall.

- Start the Airtame app by clicking on the ***Airtame icon*** on the desktop, dock, or in the Start menu.

- Once the Airtame app is open, enter the ***IP address*** listed on the ***projector*** (ex: 10.10.189.11) in the Airtame app.

- Then enter the ***pin code*** that appears on the ***projector*** in the Airtame app.

- For sound, click the ***Speaker icon***, click again to mute.

- When you are finished presenting, end the connection to the projector by clicking the ***Stop icon***.
