

Welcome letter 2026

Digital Concept Development

We are excited to welcome all new students of Digital Concept Development to a three-day introductory program.

We have planned activities throughout the days, please look in the program for further details. If you feel like extending the afternoons together, for example, with a swim or a beer, you are very welcome to arrange that on your own.

We are really looking forward to seeing you!

Best regards,
The lecturer team

Marie, Søren, Anders and Sara
